“Internship Abroad: Connect Yourself To The World and Stand-Out Among Others”

A. Youth Today

Youth Today is a platform provided by AIESEC in Indonesia in a form of webinar, which aims to connect with youths in raising awareness regarding the importance of developing leadership skills. We want to stress that youths today are future leaders and encourage them to take a step ahead to start their journey by providing them with relevant topics and a discussion space. Youth Today will take place on **29 April 2023** via Zoom. Participants will be attending virtual talk sessions via Zoom where speakers get to share their insights and experiences on how they developed their leadership skills and give participants tips and tricks on how to start their leadership journey.

Youth Today this time will focus on **Sustainable Development Goal (SDG) 8**, which aims for **Decent Work and Economic Growth**. This year’s Youth Today upholds the theme **“Internship Abroad: Connect Yourself To The World and Stand-Out Among Others”**, with the campaign **“#BorderlessYOUth”**. We aim to encourage, educate, and prepare university students on developing and implementing their leadership skills to build successful partnerships.

By increasing public knowledge and awareness regarding leadership and how it relates to partnerships through this webinar, we hope participants will gain insights on the importance of developing their leadership skills and how they can expand their institution’s network and recognition through partnerships.

The **objectives** this virtual talk are as follows:

1. Informing about global internship opportunity
2. Offering knowledge regarding global experience and networking opportunity
3. Increasing more knowledge and awareness about AIESEC's in Binus oGTa product
4. Delivering useful information about the preparation for global internship
